

# ATS is applying for an NTIA grant to bring affordable broadband to your community

## Step 1

ATS members have access to 2.5 GHz last mile radio frequencies from FCC

COMPLETED

ATS members will get paid for use of their spectrum on the ATN

## Step 2

ATS will use NTIA grant funding to build the wireless Alaska Tribal Network (ATN) in every member community

## Step 3

ATS will use NTIA grant funding to provide affordable broadband to every member community

All you need to do is adopt a Tribal resolution to install the ATN in your community with federal funding from the NTIA.

**ATS will do all the rest.**

ATS has written the grant and will design your network for you.

ATS will use NTIA grant funding to build the last mile Alaska Tribal Network in every member community.

ATS will use NTIA grant funding to provide an affordable satellite middle mile in every member community.

There is no cost or match required to receive the benefits from ATS for the NTIA grant.

**All you have to do (before September 1st, 2021) is adopt a Tribal resolution.**

This resolution lets the NTIA know that you agree to install the designed network when funded.

## How to obtain your resolution language

ATS has the resolution language available for your approval. To get this language, please go to [aktribalspectrum.org/ats-members](http://aktribalspectrum.org/ats-members) to download it. You can also request a copy via email at [info@aktribalspectrum.org](mailto:info@aktribalspectrum.org).

Once the resolution is adopted by your Tribe, simply send a copy of the document to [members@aktribalspectrum.org](mailto:members@aktribalspectrum.org), and ATS will handle the rest.
